About Me

I am a person who is open minded in learning new concepts, adaptable and reliable. I have a passion in game and software development. I am a creative individual with the potential to bring innovative solutions through efficient problem-solving and creative thinking.

Experience

Kenya National Library Service - January-February 2024 Community service volunteer

Helped in organizing books in the library and customer service in the library's Internet cafe. Besides that, I helped a lot in cataloging of books that had not been recorded by the library administration.

Education

2022 - Present

Strathmore University Bsc. Bachelor of Science in Informatics and Computer Science.

2018 - 2022

Moi Forces Academy KCSE Scored a KCSE grade of A-(77 points)

Achievements

- Dean's List - 2023-2024

Projects

- Disastrix - A Laravel project that is intended to report disasters and dispatch emergency respondents.
- MedicaMystic - A Laravel project that intends to streamline medical consultations and supply.
